

Innovation through experience

# SX-585

**An ECR from the SX Professional Series**

**Loaded with desirable features at a surprisingly affordable price, the SX-585 is the professional choice for modern retailers**

- *Barcode scanning with up to 20,000 items*
- *Graphic logo on the top of the receipt*
- *Two sided alphanumeric display*

**SMART SYSTEMS THAT DO MORE - COST LESS**  
**GELLER ELECTRONIC CASH REGISTER TERMINALS**

# An easy-to-use stand-alone cash register or an entry-level EPOS system

## The SX-585 can grow with your business

The SX-585 is priced as a simple, stand-alone cash register. But the SX-585 is powerful enough to be used as an entry-level EPOS system with scanning for 20,000 price look ups and a connection to back office sales and management software.

### Displays

The 10 digit alphanumeric front and rear displays describe all items by name and give user-friendly prompts to operators to ease and speed service. The rear display can be raised and rotated to the best viewing position.

### Drop and Load Silent Printer

The SX-585's thermal printer operates at 13 lines per second. The hi-tech 'drop and load' mechanism with separate 58mm thermal receipt and audit rolls, simplifies and speeds paper roll changes and eliminates paper jams. There is no ribbon to replace or fade, so receipts of the same exceptional clarity are produced every time. Your company logo or special design can be printed on the top of each receipt.

### Raised Keyboard or Flat Keyboard

The machine has a raised push button keyboard which can be tailored to exactly match the features and layout that suits your business. The SX-595 has the same specification as the SX-585 but has a flat keyboard. Retailers who do not use software to make changes to scanning items via a PC, require the flat keyboard.

### Low cost Scanning

The SX-585's memory can hold up to 20,000 sales items as price look ups. You can enter sales manually on the keyboard, or you can scan bar coded items for high-speed sales. A range of low cost scanners is available for the SX-585. On request, you can have a pre-loaded general retailing file containing 17,000+ popular products.

### Powerful Management Reporting

A wide choice of clear, concise Management reports provides the information you need to control your business. A series of preselected Reports can be programmed to print out at the touch of a button.

### Specification:

Power consumption 40W maximum  
Memory back-up approx 700 hours

### Dimensions:

Width: 410mm - Depth: 415mm - Height: 188mm  
(256mm high with rear display up)  
Weight: 13.1 kg (including cash drawer)

**Available to buy or rent with full maintenance cover.**

**All machines supplied fully programmed and customised to your requirements.**
