- *Up to 40 Clerks with clerk interrupt*
- *2-sided alphanumeric display*

SMART SYSTEMS THAT DO MORE - COST LESS
GELLER ELECTRONIC CASH REGISTER TERMINALS

An easy-to-use stand-alone cash register or an entry-level EPOS system

The SX-595 can grow with your business

The SX-595 is priced as a simple, stand-alone cash register, but is powerful enough to be used as an entry-level EPOS system with a connection to back office sales and management software.

Displays:

The 10 digit alphanumeric front and rear displays describe all items by name and give user-friendly prompts to operators to ease and speed service. The rear display can be raised and rotated to the best viewing position.

Fully customisable Keyboard:

The machine has a 'soft' 173-position flat, spill-resistant keyboard which can be tailored to exactly match the features and layout that suits your business.

Clerk Interrupt:

Six clerks expandable to forty with a true multi user facility allowing the machine to store rounds for each clerk.

Drop and Load Silent Printer:

The SX-595's noiseless 16 digit alphanumeric printer operates at 13 lines per second. The hi-tech 'drop and load' mechanism with separate 58mm thermal receipt and audit rolls, simplifies and speeds paper roll changes and eliminates paper jams. There is no ribbon to replace or fade, so receipts of the same exceptional clarity are produced every time. Your company logo or special design can be printed on the top of each receipt.

Powerful Management Reporting:

A wide choice of clear, concise Management Reports provides the information you need to control your business. A series of pre-selected Reports can be programmed to print out at the touch of a button.

Specification:

Power consumption 40W maximum
Memory back-up approx 700 hours

Dimensions:

Width: 410mm - Depth: 415mm - Height: 188mm
(256mm high with rear display up)
Weight: 13.1 kg (including cash drawer)

Available to buy or rent with full maintenance cover.

All machines supplied fully programmed and customised to your requirements.

www.crs-ipswich.co.uk

Some of the many important features:

- Automatic Backup of program and sales information
- Password protected sign-on for clerks
- Clerk Interrupt (several clerks can use the SX-595 at the same time)
- Up to 40 Clerks by ID number, compulsory clerk ID
- Scroll back/scroll forward with error correction
- Drawer Alarm with programmable time delay
- Quick & easy price change
- 20,000 Price Look Ups
- Training mode for new staff
- 2 x RS232 communication ports for linking to a PC and/or a barcode scanner.

As standard, the SX-595 meets most hospitality requirements, including simple stock control. But linking SX-595 terminals to a back office PC, located in-house or remotely, provides an integrated EPOS solution.

Geller Sales and Management Software

David Sales Manager controls all aspects of programming in-house or remotely. It enables you to change prices/product names. David collects and consolidates trading information from all SX-595s in a business, in-house or at remote sites, and presents it in easy-to-read Reports for Management.

Geller Stock Control Software

Single or multi-site, SuperStock Hospitality Software is widely used where full inventory control, menu explosion and purchase ordering are required.

Powerful management reporting, customised to users' needs, improved margin control and reduced operating costs are just a few of SuperStock's many benefits.

About CRS-Ipswich

CRS is a family run business that has been supplying cash registers & EPOS systems for over 35 years to businesses throughout Suffolk, North East Essex & South Norfolk.
