

VoyagerGS® 9590

The MS9590 VoyagerGS features a new ergonomic design that maximizes comfort and reduces fatigue for customers desiring a trigger-activated, hand-held laser scanner. This new form makes the scanner ideal for retail point-of-sale.

- **Ergonomic Design:** Fit comfortably into a wide range of hand sizes
- **100 scans per second:** Improves scan aggressiveness with increased scanning speed
- **Durable Construction:** Reduces downtime and service costs
- **Automatic in-stand detection:** Allows seamless transition from hand-held to presentation mode scanning

Voyager® 9520

The MS9520 Voyager hand-held, single-line laser scanner features patented automatic infrared activation. The scanner works either in the hand or in the stand.

- **Automatic Trigger:** Use the scanner as either a hand-held device or a fixed presentation scanner when mounted in the stand
- **650-nanometre laser:** The high-visibility laser allows the user to place the laser line on a selected bar code

Fusion® 3780

The MS3780 Fusion combines omnidirectional and single-line laser bar code scanning in a lightweight and ergonomic hand-held form. The 20-line scan pattern provides superior scanning over existing single-line scanners, making the Fusion ideal for medium-volume retailers.

- **Primary omnidirectional scan pattern:** Aggressive scanning of bar codes in any orientation, increasing throughput
- **Secondary single-line scan pattern:** With a push of a button, switch to a targeted single-line for menu/book scanning
- **Automatic stand detection:** Hands-free operation for presentation scanning, reducing operator fatigue
- **Sleep mode with IR wake up:** Multiple sleep modes reduce power consumption, extending life and lowering cost of operation

Orbit® 7180

The MS7120 the all-time, best-selling hands-free omnidirectional laser scanner presents an innovative, elegant and affordable solution for high volume retail applications where counter space is at a premium. Recipient of multiple design honours, the MS7120 has an award-winning shape that enables hand-held scanning of large, bulky items.

- **20 scan line omnidirectional pattern:** Provides aggressive scanning as an additional benefit to hand presentation applications
- **Adjustable scan head:** Ability to tilt the scanner 30° for targeted scanning or larger products
