

BJ-02C Note counter

A low cost note counting machine that accurately counts all types of banknotes.

The counting speed is incredibly fast (up to 1000 notes/minute) and it also has the ability to batch count notes i.e. it can count say 100 x £10 notes for easy banking. It has a separate remote display for counter top use and is fully portable.

It's ideal for any business or organisation handling cash on a daily basis and can really save time when reconciling tills etc.
