

Veg prep machine

Indispensable in every kitchen and food prep area. Designed for cutting, slicing, grating and shredding. This machine will process a wide variety of food, including vegetables, fruit, bread, cheese, chocolate and dry fruit. All parts in contact with food are manufactured from stainless steel. This practical machine reduces production times.

Mincers

We supply a range of mincers suitable for a variety of jobs.

Stainless steel table top models for low volume use and larger models suitable for sausage production.

Sausage stuffers

Constructed entirely out of stainless steel with a 5 litre capacity. Suitable for bench operation. The machine has gear reduction drive, and comes with 4 stainless steel nozzles as standard.

A vertical model is also available.
